1. Download the FX-ULTRA MAX bot.ex5 file from our website www.fx-ultra.com

2. Open the MetaTrader 5 terminal with your logged in trading account.

3. In the main top menu, select File, and in the drop-down list, select Open Data Folder.

- 4. In the folder that opens, go to MQL5 -> Experts.
- 5. Place the downloaded FX-ULTRA MAX bot.ex5 file in the Experts folder. Close the folder.
- 6. In the main top menu, select Tools, and in the drop-down list, select Options.

- 7. In the window that opens, click on the Expert Advisors tab.
- 8. Check the box "Allow WebRequests for listed URLs:"

After that, the main panel of FX-ULTRA MAX bot will be displayed on the chart and the bot will synchronize with the server and open the trades that are currently on the source account.

Trading has begun. Then all you need to do is keep the terminal open. The bot itself will open and close the trades that it considers necessary to make a profit.
